ABOUT THE STATE

At the meeting of the advisory board
of the university of Vermont William
M. Higgins was elected base ball coach
for next year's university of Vermont
base ball team.

Mrs. Jennie Jones, a native of Brat-
tlesboro, who died at her home in Brook-
line, Mass., recently, leaves \$75,000 to
benevolent and religious institutions.
The rest of her estate is distributed
among her heirs-at-law in various parts
of the country.

The Rev. L. D. Ringrose of Whiting-
ham, who has just returned home from
the North Adams, Mass., hospital, is
in very poor health and has given up
his pastorate at the Baptist church, his
resignation taking effect Sunday.

The cash drawer and a tin document
case taken from the safe at the Wil-
mington post office at the time of the
burglary about eighteen months ago,
were found by Road Commissioner Gleason's men the other day under a stone
pile which the men were moving. They
were found about a mile east of the
village, on the Jacksonville road, near
the Averill tavern.

At a recent special town meeting
held in Troy, a special tax of 75 per
cent. on the grand list of 1908, outside
the village of North Troy, was voted,
to raise money to enable the town to
pay the sum of \$2,555.69 to the North
Troy graded school district in conformity
to the decree of the supreme court
granted said district in its suit against
the town to recover according to the
terms of the will of the late Moses
Dodge its share of the Dodge fund.

MORGAN'S NIECE MARRIED.

Becomes Wife of Rev. William Fitz-
simon of Tuxedo Park, N. Y.

Tuxedo Park, N. Y., June 24.—Miss
Ursula Juliet Morgan, daughter of Mrs.
John D. Morgan of New York, was mar-
ried yesterday to Rev. William Fitz-
simon, rector of St. Mary's Episcopal
church here. The bride was given away
by her uncle, J. Pierpont Morgan. Five
hundred guests witnessed the marriage
ceremony.

Child Scalded to Death.

Details have been received concern-
ing the fatal scalding accident in Hal-
fax Monday evening, June 15. Some
children of William B. Warren were
preparing to take a bath and had a
tub of hot water on the kitchen floor.
The youngest child, Webster Clarence
Warren, two years old, was drawing a
wheeled toy on the floor, walking back-
ward. He went against the tub and
fell backward into the water and his
body was immersed with the exception
of the face, chest and legs.
The skin fell off in large patches
when the clothing was removed.
The child was one of five children.
The mother died suddenly three months
ago.

Drowned While Bathing.

Nazareno Moretti of Readsboro,
aged 18 years, was drowned Saturday
afternoon, June 12, while bathing with
a friend at the head of Newton pond
in the Deerfield river. The friend, who
was with Moretti, narrowly escaped
losing his life trying to rescue Moretti.
After vain attempts he rushed to the
village to obtain help.

An unsuccessful search for the body
was made by a large number of peo-
ple until they were prevented by night-
fall. At daybreak Sunday morning
Gronovani Maroni and William Abb
rowed to a point where Moretti was
last seen, dragged a long pole with a
hook attached to the end of it, in the
river, and soon hooked on to one arm
of the body deep down in the water and
drew it to the surface. From the con-
tracted condition of the legs and arms
when the body was recovered it is evi-
dent that the boy was seized with
cramps which caused him to drown.
The young man is survived by two sis-
ters.

ALL SETTLED IN ENGLAND.

Geo. C. Cassie Writes Back That He
Likes the Country.

George C. Cassie, who recently left
Barre for England, writes to John Jones
and William Mears that he is comfort-
ably settled near the famous Rugby
school and that he is contented. His
letter is as follows:

Park House, West Haddon, Rugby,
June 12, 1908.

Messrs. John Jones and Wm. Mears:

Dear Sirs—I promised you beginning
of February that I would write from
England when settled down. You know
it was very cold weather about that
time, 40 degrees below zero one morning,
and stormed and blowed so the trains
couldn't go, and we came pretty near
missing our boat at New York. On
board the boat we were soon passing
under the harbor, Brooklyn bridge, the
Statue of Liberty, and Sandy Hook
faded from sight, and the big Lusitania
had struck her track and was going.
The huge vessel, over one-seventh mile
long, over 3,000 people on board, steady,
and the British flag hoisted, made me
think of Thomas Campbell, who years
ago wrote "Ye Mariners of England."
It is a pleasure to cross the Atlantic
goaways on these modern boats in
summer or winter. After the first day
or two out it was quite warm and in
little over five days we were coasting
Ireland. At Queenstown we stopped to
let mails off, and I listened for the "Bells
of Shandon," but it was past midnight
and I presume the descendants of Father
Prouty and Eugene Sullivan had gone to
sleep.

Two hundred and twenty-eight miles
from there we sojourned to Cumberland,
looked over the "Black Combs" and the
Duddon, where Wordsworth used to sing
and Compton Lake in the mountains,
where John Ruskin lived and died. Cum-
berland, Westmoreland, and the north
part of Lancashire is an extremely moun-
tainous country, most beautiful in sum-
mer, and is called the lake district of
England.

Away back about 50 years before
Christ, Great Britain was inhabited by
the ancient Britons, and the Romans
came over and invaded England and
drove the natives into the mountainous
regions of Cornwall, Wales and the lake
district and kept the best part for them-
selves. The ancient Britons had lots
of wars with the Romans, however, and
although not equipped as the Romans
were, they had some good generals, one
of which was Cassivellaunus (one of my
forefathers) who fought so stubborn that
Caesar ordered him sent with his family
to Rome and upon seeing him ordered
him freedom to live in Rome. The Ro-
mans kept control of England for four
or five hundred years when they with-
drew, but they did lots of good. They
learned the English how to make pot-
tery, roads, and gave them religion.
There are many of these Roman roads
to-day, they are mostly straight and
were originally very rough.

After the Romans left, there were other
warlike people from Europe who came—
the Danes, Saxons, Normans, etc.—
and finally after giving the other a
good licking, they all settled down
together and are getting along finely
now, but in some villages in England
you can still see the old European cus-
toms. In Lancashire the Flemish weav-
ers still clatter round with boots with
wooden soles and again some village
makes you think of a Dutch settlement.
Just the same, you can see the connec-
tion of England with New England. If I
stop and watch a man here hitching
onto a log, he does it just as they would
in Warren.

That part of England west of a line
from Flamborough Head to South Devon
is mostly a hilly or mountainous country
with lots of mines, coal, iron, slate, stone,
etc., and has a rainfall of from 40 up
to 150 inches in the lake district. That
part of England on the east of that line
is mostly a rich agricultural country
with manufactures in the cities and vil-
lages and the rainfall is only about 27
inches in the midlands, barely enough
for vegetation were it not for the fact
that the soil holds water very well.

I was over at Warwick looking round
and had a look at the old castle. You
know in the Farmers' club in Barre we
had a very strict rule that no member
should pull down fences unless he was
prepared to build a better one to take
its place. Since my travels in Warwick,
I would advise no change in that rule.
It is a fine old place, Warwick, and
Leamington is a very modern fashion-
able summer resort having extensive
baths.

Rugby is a great railroad center and
famous for schools. I enclose you a
picture of Rugby school. You will notice
the windows seem small, but I presume
they stuff them same as we used to tur-
keys in a dark room before Thanksgiving.
Rugby owes much to Thomas
Hughes, author of "Tom Brown's School
Days." Hughes went to school there and
didn't do just right, but as Raymond
Delmer said about the baby, there was
some good white streaks about him and
he turned out all right and Rugby re-
members him with a fine monument.

I was down by London once or twice.
It is 75 miles from here, one and a half
hours' ride, a fine city and easy enough
to get along in. It is a world of itself
and must have taken a good while to
build it, but when you get on the cars
you are out of it before you know it.
I don't see why they don't build more of
them. There is room for 20 more Lon-
dons in England and still have room to
hunt foxes.

I was looking round for a small farm
where trees and hedges grow easy and
don't have to fight the elements too
much, and have bought this one and
been here three weeks and got furnished.

at 75½ cents. This will raise \$45,
201.75. Last year's total tax was
\$38,616.50. This year's village tax of
35 cents will raise \$17,011.94; the same
tax last year raised \$16,019.02. This
year's town tax of 80 cents will raise
\$3,992.63; the same tax last year raised
\$4,026.90. The increase in this
year's total tax rate in the town tax
and to the county tax of 4½ cents,
there being no county tax last year.

I have a number of spare rooms; if you
happen around this way, call.

This is a grazing country, very few
fields are plowed up, some have been
in grass for hundreds of years. My farm
was all plowed up about 20 years ago
and been pastured mostly since, yet I
expect a hundred tons of hay off it this
year and it will have to be cut by June
20th.

The roads are remarkably good here
in all weather. I am on the main road
between Northampton and Rugby and
it is a favorite road for automobiles and
motor cycles. A few miles below is
Little Brington, the home of George
Washington's ancestors, and is a favor-
ite calling place for traveling Americans.

This is the center of the Pycheley
hunt and I expect to see some fur fly
soon.

Some of my friends wanted me to go
West, but I cannot see their object un-
less they wanted me to go to Idaho.

I feel very pleased and very much at
home here in England. It is the garden
of the world, and expect soon to be an
Englishman.

With best wishes to other members
of the Farmers' club and other friends,
I am, Yours truly,

George Cassie.

MITCHELL'S FUTURE.

Not a Candidate for Any Political Office,
He Says.

Chicago, June 24.—John Mitchell, for-
mer president of the United Mine Work-
ers of America, issued an authoritative
statement Monday evening, refusing to
allow his name to be considered as a
candidate for governor of Illinois on the
Democratic ticket, or as a candidate for
vice-president with Mr. Bryan. "I am
not now, and shall not be, a candidate
for any political office of any kind,"
declared Mr. Mitchell.

Friends of Mr. Mitchell said that he
had agreed to accept an office in the
National Civic Federation's trade
agreement department. He desires, they
said, to put himself where his services
will be of the greatest possible value to
laboring men generally throughout the
country. In this office his work would
be in connection with the efforts to set-
tle disputes between employer and em-
ployed without resorting to strikes and
lockouts. The office carries a salary of
\$6,000 a year.

"It gives me pleasure to speak of a
good word for Electric Bitters," writes Mr.
Frank Conlan of No. 426 Houston street,
New York. "It's a grand family medi-
cine for dyspepsia and liver complica-
tions; while for lame back and weak
kidneys it cannot be too highly recom-
mended." Electric Bitters regulate the
digestive functions, purify the blood, and
impart renewed vigor and vitality to the
weak and debilitated of both sexes. Sold
under guarantee at the Red Cross Phar-
macy, Rieker & Wells' drug store, 50c.
